NIRUPLUS
Agritech Pvt Ltd

SUSTAINABILITY
MEETS
INNOVATION

Empowering Agriculture with
Smart Pipe Solutions

About Us

M/s Niruplus Agritech Private Limited a start-up company in the Agriculture and Agro-Tech sector, run by a team of dedicated professionals.

We have set up a HDPE Pipes & Drip Pipes Manufacturing Unit at Plot No. 298, KIADB Kolar Industrial Area at Bidar in the district of Bidar, Karnataka.

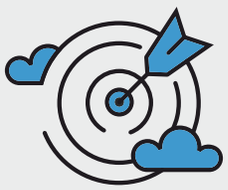

The HDPE Pipes & Drip Pipes manufacturing industry plays a crucial role in various sectors.

Our Vision

To become a leading manufacturer of high-quality HDPE and Drip Pipes, driving innovation and sustainability in the industry. We aim to efficiently meet market demands while adhering to environmentally friendly practices, contributing to the local economy, and fostering long-term growth through excellence in production and resource management.

Our Mission

To establish a state-of the-art manufacturing unit for HDPE and Drip Pipes that delivers superior products to meet the growing needs of various industries. We are committed to sustainable practices, efficient resource utilization, and compliance with environmental norms, while creating employment opportunities and contributing to the economic development of the region

Our Dedicated Core Team

Directors :

Mr. Vishal M. Mankar
Ms. Gayatri V. Mankar

Prashant Shinde	Senior Sales Head
Sanjukumar Botagi	Senior Sales Manager
Rajshekhar Mudhur	Senior Sales Executive
Veeresh Mankar	Quality Engineer
Vijaykumar Gone	Senior Accountant
Girish Kaji	Supervisor

Our Solutions

Smart, sustainable, scalable

1. Soil and crop health monitoring
2. Eco friendly techniques
3. Blockchain for supply chain transparency
4. Farmer training and support

Smart pipe systems

- Durable and eco-friendly pipes
- Custom drip & sprinkler kits
- Designed for indian soil and climate
- Pest control systems
- Soil health monitoring
- Predictive analytics for yield forecasting

Impact

- Boosts yield
- Lowers cost
- Better water management

Our Solutions

Our comprehensive product range includes

HDPE PIPES & COILS

for Potable Water Supply, Gas, Chemicals, Telecom & Electrical Ducting Applications

Made From Virgin Plastic

Safe & Cost Effective

Durable And Flexible

IS: 4984

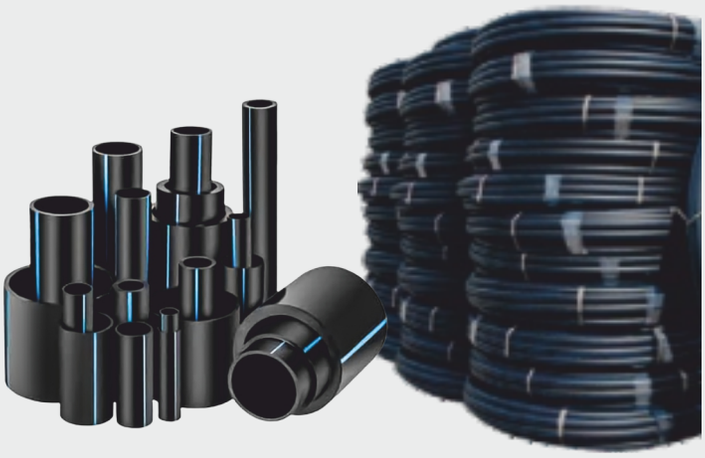

As Per IS:4984-2016

Electrical Ducting

Gas & Oil Transmission

Telephone Cable Protection

Potable Water Supply

Industrial Usage

Office & Residential Use

Niruplus Agritech Pvt. Ltd. High Density Polyethylene Pipes are made from thermo plast polymers, a cost effective material used for a broad range of piping solutions in landfill, industrial, electrical municipal and agricultural application. They have been subjected to the most gruelling of tests and proven effective for above ground surface, buried slip lined floating and sub surface marine locations.

HDPE Pipes carry potable water waste, water slurries, chemicals, electric wires and hazardous waste and compressed gases with the greatest ease. In fact, Polyethylene Pipes have a long and distinguished history of service.

- Type and colour : Black colour with Blue Strips
- Product Range (MM) : 20mm to 200mm
- Pressure : PN2 to 20
- Material Grade : PE 100 /80/63
- Standards : Is 4984-2016
- Application : Potable Water Supply, Industrial, Electrical Work, etc.
- Made under strict quality standards and conform to various ISI and international standards

DIMENSIONS		
S.NO.	Size Range	Length (in metres)
1	20mm to 50mm	100, 200, 300, 500 & 1000 metre coils
2	63mm to 75mm	100, 200 & 300 metre coils
3	90mm to 110mm	100, 125, 150 metre coils & Straight length of 6 metre
4	125mm to 200mm	In Straight length of 6 metre

Our Solutions

Our comprehensive product range includes

PVC pipes

Lightweight, cost-efficient

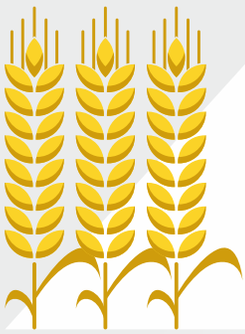

DRIP irrigation

Precision water delivery

Sprinkler systems

Ideal for large scale farms

Technology stack

- **Machine learning :** yield forecast, pest detection, crop health, predictive analytics
- **Sensors :** real-time soil & climate change
- **Blockchain :** secure, transparent agri supply chains
- **Cloud infrastructure :** scalable, reliable data management and insights delivery

Competitve Advantage - Why NIRUPLUS?

- Fully integrated agritech+pipe ecosystem on one platform
- Localized, scalable solutions adapted to regional farming needs
- Focus on sustainability of water, soil and resource conversation
- Farmer centric design : training and field support
